

D- DESIGN ENGINEERING CONSULTANCY

Bharatpur-07, Chitwan, Nepal

Estd: 2080

Ref No: 215

Date: 04 October 2026

It gives me great pleasure to write this recommendation letter for **Mr. Spandan Poudel**, who joined D-Design Engineering Consultancy as a Civil Engineer on 17th September, 2024 and is currently employed with us. During this period, I had the opportunity to closely observe his technical and personal growth, analytical thinking, and disciplined engineering approach.

During his tenure, Mr. Poudel worked across design, planning, and site supervision on residential and commercial buildings and water supply projects. He prepared structural drawings, reports, and calculation documents in compliance with project specifications and design codes, and produced bills of quantities and rate analyses. He is proficient in AutoCAD and Autodesk Revit.

As site supervisor, he ensured that construction activities complied with approved drawings and specifications, translating design intent to the construction field. He also equally helped in the environmental impact assessment of several projects and demonstrated an ample understanding of a consistent balance of technical, environmental, and practical requirements.

Beyond his technical abilities, what stood out most was his sense of ownership and leadership. He coordinated effectively with architects, clients, and other stakeholders, approached complex problems with patience and structure, and worked independently while collaborating well with the team. His ability to turn engineering principles into practical, real-world solutions made him a truly valuable member of our organization.

I strongly recommend Mr. Spandan Poudel without reservation and am confident that he will excel in an advanced technical or research oriented role he chooses to pursue. I wish him continued success in his future endeavors.

Sincerely,

Er. Dipak Koirala
